ORCHARD AND GARDEN.

Plant the cherry trees first. They do better if they can be given an early start.

The commercial orchardist who plants a large number of varieties makes a mistake.

Select the varieties for a family orchard with the view to having fruit ripen at different times.

Raspberries should be planted in long rows, so that they can be cultivated the same as potatoes or corn.

Apple trees should never be planted closer than 30 feet apart. If planted too close, air and light cannot get to them.

If the trees need pruning, it is easier to prune them as soon as the necessity shows itself than after several seasons of neglect.

A tree of good shape has much to do with the appearance of the orchard. The earlier they are looked after the easier will be the work.

Horticulture when followed intelligently gives better returns upon the capital employed than almost any other branch of agriculture.

One advantage with the strawberry is that a number of plants can often be grown where there would be hardly room for a tree or where one would be undesirable.—St. Louis Republic.

PITH AND POINT.

Some men seem to think a woman's mission is submission.

The night key always has the hardest work to do in the morning.

The dentist finds work for his own teeth by depriving other people of theirs.

A standing joke may not require a seat, but there are times when it should be shelved.

An underwriter says the eyes of women kindle the only flames against which there is no insurance.—Chicago News.

The Nature of Ether.

If any reader is disposed to object to the assumption of a medium behaving in such very different ways with regard to motions of different speeds, it may assist in convincing him that the objection is not a valid one to direct his attention to the similar behavior of such a familiar substance as pitch. In moderately cold weather this material has all the appearance of a solid and will resist a blow or momentary heavy pressure. If, however, a denser body than the pitch, such as a bullet, for example, be laid upon its surface, it will gradually sink until it rests up on whatever is supporting the pitch. If, on the other hand, the pitch is placed upon a less dense body, such as cork, the latter will float up through it in the course of time. The pitch, therefore, exposes great resistance to rapid motion, but the smallest pressure causes it to give way if sufficient time is allowed.—Knowledge.

Mr. Bickerley's Method.

"I have here a complete and concise history of our war in the"—
 "Exactly, exactly," hurriedly interrupted Mr. Bickerley. "Just what I have been looking for. What a beautiful edition! By the way, don't forget to go around and see my wife. She wishes you, you know. Never mind the price. It's \$10, and you can keep the change."

The book agent had fallen helpless against the desk. The surprise was too much.

"Here, boy!" called Mr. Bickerley. "Help me carry this fellow out. That's the way to fix 'em."—Indianapolis Sun.

Thos. W. Carter of Ashboro, N. C., had kidney trouble and one bottle of FINE'S KIDNEY CURE effected a perfect cure, and he says there is no remedy that will compare with it. W. A. D'Alemberte.

Marston & Finch are headquarters for ham-mocks, either fine or cheap. Call and see their stock.

MAY INVOLVE THE WHOLE OF EUROPE

America Will Enforce Payment of Indemnities.

SEIZE PORT OF SMYRNA

Unless Claims of American Missionaries Against Turkey Are Immediately Adjusted United States Will Take Charge of Turkish Harbor.

WASHINGTON, April 18.—The United States charge d'affaires at Constantinople will be directed to inform the sultan that this government must insist on the payment without further delay of the indemnity for outrages on American missionaries and destruction of their property, unless prompt action on the sultan's part anticipates the ultimatum and the debt is discharged before a resort is made to drastic measures.

Several courses have been urged on the president for the collection of the indemnity, which is admitted by the sultan to be due to the American missionaries. Consideration has been given to a proposition to seize the port of Smyrna and administer its customs revenues until the judgment and expenses of collection are cancelled. This course has not been wholly abandoned in the remote contingency that satisfaction is indefinitely delayed.

It involves serious complications in the Mediterranean, for which the United States is extremely reluctant to assume responsibility for the recovery of so small an amount at the present time. It might precipitate war through Turkey's sending some of its antiquated warships to Smyrna to resist the temporary American occupation. In that event the necessity for sending a large fleet to the Mediterranean would create alarm among the powers and disturb the delicate equilibrium now existing in Europe.

Under the circumstances it has been determined to exhaust all resources of peace with confidence that the sultan will be brought to understand that his promises cannot be lightly broken.

The proved claims against Turkey include about \$300,000 for the destruction of property alone. To these which admitted of practically no dispute, there was added the Lenz claim of \$40,000 which was presented to Secretary Olney.

PORTE REPLIES TO POWERS.

Serious Complications May Arise From Increase of Duties.

CONSTANTINOPLE, April 18.—The porte has replied to the third of the collective notes of the powers on the subject of an increase of 3 per cent in duties. The note announces the intention of the government to adhere to the plan of increasing the duties on account of the bad condition of the Turkish finances.

The ambassadors have decided to address another note to the porte again stating their objections to such an increase without a previous understanding with the powers.

The pertinacity of the porte threatens to have serious results.

Chocolate Cream Mint Wafers. If your dealer has not got them, tell him to get them.

LEGRANDE ON ALCOHOLISM.

Alabama Physician Has Strong Views on Subject.

MONTGOMERY, Ala., April 18.—Dr. J. C. Legrande of Birmingham, president of the State Medical association in session here, delivered his annual address and complimented the state board of health on the practicability and economy of its yellow fever quarantine service for the past two years and advised that a compulsory vaccination law was a necessity in Alabama. He said typhoid fever should be included among the dangerous contagious diseases and that statistics and conditions concerning it should be gathered by the association.

He called attention to the fact that alcohol had done more harm to any other agency to wreck the health of humanity. Prohibition and the dispensary had both failed to attain their desired object. He suggested that education with suitable textbooks showing the evils of alcoholism was the true solution. For men who are now inebriated the state should establish an asylum, he insisted.

Oh, Beauties' Maid!
 There was a girl in our town
 Who was so wondrous fair
 She could have given many
 Of her girl friends a share
 Of beauty, but she wouldn't,
 And kept it behind locks.
 "Because," she said, "it costs me
 Just ninety cents a box."
 —Philadelphia North American.

Not So Nice.

Mrs. B.—You used to say that I made you think of everything nice.

Mr. B.—So you did, dear.

Mrs. B.—And now when I tell you to get anything nice you never think of it. That's the difference.—Philadelphia Bulletin.

Deafness Cannot be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are cured by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free.

OUR NAME'S PANTS!

Said about 500 pairs of long legged, short legged, slim, fat, pussy, bow legged, straight legged all sorts of legged garments, as they got out of the boxes and up onto our clothing tables.

500 pairs of pants in one day is a good many, but what about them? Some are a dollar a pair, good cassimere pants. Some are two dollars a pair, good cassimere pants. Some are three dollars a pair, good cassimere pants. Some are two, three and four dollars a pair, good worsted pants.

WE DO NOT

buy pants for advertising purposes—to sound cheap. We buy good pants, pants that are made of good goods; pants provided with all the comforts of home; front pockets, watch pockets, (to watch your money pockets nights in case your wife wants to see if she is getting half of your income) pistol pockets and refreshment pockets.

WE SELL ALL WOOL PANTS,

Solid as a rock, plain or fancy patterns for \$2.50 that will keep an able bodied man busy nights and days to wear them out in a year, and for \$3.00, some new fancy cassimere pants, lapped seams and creased knees.

WHY, SAY!

We sell all pure worsted pants for \$4.00 that are simply great. Patronize our Pantry, it pays.
